Steven H. Wisness, Acting Program Manager  
Office of Environmental Assurance,  
Permits and Policy  
Department of Energy  
Richland Field Office  
P.O. Box 550  
Richland, WA 99352

Dear Mr. Wisness:

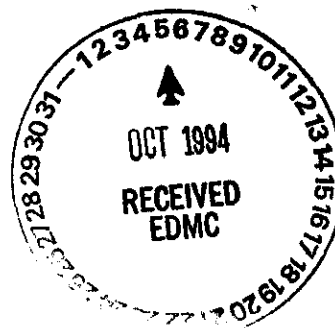

This letter is in response to your submittal of July 1, 1994, requesting approval of construction for the B Plant Vacuum Loader. My staff has reviewed your submittal and based on that review I have determined that the proposed facility, if properly operated, will not cause emissions to exceed the standards of Title 40 Code of Federal Regulations (40 C.F.R.) Part 61, Subpart H. In accordance with 40 C.F.R. 61.08, I hereby grant approval for construction of the B Plant Vacuum Loader as described.

If you have any questions regarding this approval, please contact me at (206) 553-4152, or Richard Poeton at (206) 553-8633 for technical matters.

Sincerely,

*for*  *acting*  
Jim McCormick, Director  
Air and Toxics Division
